

# RENEWABLEanalytics

## TITLE: European Director of Research

### JOB DESCRIPTION:

- On a day to day basis this candidate will research the Solar PV industry in Europe's key markets – Germany, Italy, France, Spain and other developing regions. This research will be done through phone calls and meetings with Dealers, Installers, Manufacturers and key component suppliers to the industry.
- The focus of the research will be on the key components of the supply chain: Silicon, Wafers, Modules and Projects.
- The criteria to be assessed are supply, demand, pricing, inventory, lead times, future forecasts and other key criteria.
- This is a very unique opportunity to work with one of the world's leading provider of supply chain research for the Solar PV industry and the investment community. Renewable Analytics was formed nearly a year ago and has offices in the US and Germany. The current European Managing Director has been in the solar industry for more than 5 years and will be moving to work in the company headquarters in San Francisco.
- For this Director position, the ideal candidate must have significant experience and established contacts in the solar industry. The ideal candidate will have worked at a large dealer or installer for several years, with a deep knowledge of the inner workings of the industry.
- This position will require travel within Europe and internationally on a less frequent basis to collaborate with other research team analysts, and also to meet industry contacts.
- Prior work experience in the solar industry is a prerequisite. The ideal candidate will have excellent written and verbal communication skills, exceptional interpersonal capabilities, as well as superior analytical abilities.
- Candidate must be fluent in English and German, other languages are a plus..
- Base Salary Commensurate with experience, plus bonus and stock options. This is a demanding position and the candidate must have a strong work ethic and intellectual curiosity.
- Please send a cover letter and resume to [jobs@renewableanalytics.com](mailto:jobs@renewableanalytics.com).
